

# CARIN SANCHEZ

I'm a Systems and Networks Engineering student at Gerardo Barrios University, with a keen interest in interface design and web development. I'm constantly learning and currently developing skills in HTML, CSS, JavaScript, Figma, and other technologies. I'm interested in UI/UX design and creating digital experiences.

- Creativity
- Punctuality and responsibility
- Teamwork
- Adaptability
- continuous learning

## EXPERIENCE

### ► March 2024 - December 2024

Role: UI/UX Designer and Frontend Developer

#### Shulton Parking

- A web platform that allows users to search for parking in Usulután. The application provides detailed information about each parking lot, including hours, capacity, address, and photos. It also includes an interactive map showing the user's location and the best route to the selected parking lot, integrated with PHP, CSS, HTML, and APIs.

### ► July 2023 - December 2023

Rol: Desarrollador Frontend

#### scandalo Butique

- Web-based platform for managing employee attendance. The platform allowed employees to log in and out with their username and password. From the admin panel, supervisors could monitor schedules, verify compliance with work schedules, and calculate time worked.
